We offer a fixed or tailored fee package. We can come to your office or work remotely, whatever suit your business needs

### Experienced

A wide range of skills and qualifications are at your disposal, allowing you to draw on resources as and when required.

### On Time

You can focus more on the core activities as we help you save valuable time handling the financial front of your business.

### Quick Resolution

Our team supports your business and settles any unfavorable situations to the best of their expertises.

### Fraud Identification

With our experience, we work towards early detection of potential threats and frauds that may result in financial loss.

# Audit & Assurance

One of our key services is our Audit & Assurance practice. There are numerous ways in which a properly executed audit adds value to customers' businesses, making it an attractive procedure for any organisation to use.

The audit process is an independent examination of the financial statement of any entity, whether profit oriented or not and irrespective of its size or legal form when such an examination is conducted with a view to expressing an opinion thereon.

We're designing and implementing a customised audit plan that focuses on the areas of your business that significantly impact your financial statements.

- Statutory / External audit
- Special purpose audit (includes Donor Requested Audits)
- Inventory Audit
- Forensic Audit
- Due Diligence & Review
- Internal control audits according to regulations & international standards
- Agreed-upon procedures
- Compilation of reports

# Accounting Services

BS. offers its clients a comprehensive range of financial reporting and accounting services to enable them to account for the varied needs of individual companies' undertakings in various sectors. Any business will be helped by our expertise in all areas of financial planning, accountancy, or business management to realize its fullest potential and financial growth. The Accounting and Bookkeeping services include:

- Accounting System design & implementation
- Records Management
- Ongoing outsourced bookkeeping and accounting services
- Preparation of accounts from the records for audit and other purposes
- Preparation of monthly accounts for small businesses from basic records
- Assistance in writing up books of accounts either on a regular/periodic basis
- Existing accounting system examination followed by recommendations and implementation solutions

In order to give our clients peace of mind with a more flexible and relaxed approach to all their bookkeeping and accounting needs, we introduced an outsourcing service for accounting and bookkeeping. It is no longer necessary for any business to hire a full-time or part-time accountant. Those services include:

- MIS reporting
- Financial Analysis and Balance Sheet Management
- Financial and business restructuring
- Cash flow analysis and management
- Working capital and inventory management
- Budgeting and strategic planning

# Tax Services

With regard to the implementation of Taxation Law, our Tax consultants will be prepared to provide clarity on specific problems that you may encounter with your business. Almost every transaction carried out by the company, from trade to acquisition or offshoring, carries a tax implication. Balancing compliance details and long-term tax planning is often a challenge for even the most sophisticated global companies.

In order to help you understand how this can affect your business, implement it and comply with the law, we have a dedicated set of resources for working with tax authorities.

Our Services include the following:

- Tax Planning
- Corporate Tax Reporting
- Tax Refunds
- Tax Registration & De-registration
- Tax Compliance Reporting
- Excise Tax
- Tax Audit
- Tax Health Check up

# Other Services

Apart from Accounting Audit & Taxation services, we provide our clients with a wide range of services that can help them to enhance their focus on the core values of the business.

## **Feasibility Studies & Project Appraisal Services:**

Feasibility studies undertaken by us provide effective support to the decision process. We are placing an emphasis on sensitivity analyses to ensure that our studies take account of the most important characteristics of a given sector. Careful evaluation of market feasibility, risk analysis and planning is carried out.

## **Mergers and Acquisitions:**

Mergers and Acquisitions are two changes in the control of companies that relate to the consolidation of activities among a number of different entities under one roof. Two companies consent to combine their activities into one company in the course of a merger.

In order to address the complexity of merger and acquisition transactions, dedicated experts are needed who can detect threats, potentialities and add value in a transaction's lifetime.

# Other Services

## **Risk Assessment:**

BS. Accounting is an accounting firm providing clients with quality risk assessment services and ensuring that organisations comply with legislation and best practice, while at the same time minimising risks by identifying, assessing, and documenting them. It is possible to do this through a flexible, cost-effective service that allows the risk associated with your business to be managed without incurring undue costs in order to achieve its objectives.

## **Insolvency:**

Any person who wishes to settle his or her debt under the new Insolvency Act No 19 of 2019. In accordance with the law, we prepare a file for our clients who want to settle their debts and submit to court.
